Dough Family and Dubb Family

By F. OPPER

It has remained for the puppets of Lodge in the Legislature to be told by him, and to believe it, that something is taken from their dignity and honor when they are called upon to heed the will of the people.

These are some but not all the facts which underlie the determination of Massachusetts to let Lodge remain at home in his library, renewing that fine scholarship and exhibiting it in some acceptable historical sketches which will please the American people more than the exhibition of his practical politics ever pleased them.
